

Date: 9 August 2023

IMPACT

In this challenge, more than 20 change makers from all over the world collaborated for 8 weeks to build the AI solution

The Project:

Building a Multi-Platform Wellness Content Delivery System Using Machine Learning

CERTIFICATE OF ACHIEVEMENT

THIS IS PRESENTED TO

Rohit Macherla

| ML Engineer

Highly motivated team of changemakers collaboratively built a series of recommendation systems to provide personalised wellness content based on user needs and prompt them at appropriate times during the day, and developed mechanisms for a flexible system using an active feedback loop through user engagement and evolving wellness trends.
